Each applicant will be asked to submit the original applications and supporting documentation together with another copy at a later stage.

Due to the same COVID-19 issue, the GXF reserves the right to provide additional time to applicants in order to submit the rest of the documents, **which are not indicated as compulsory at application stage**.

The list which is not an exhaustive one, includes:

- the VAT Declaration Form;

Signed applications should include all required documentation. In case an application is submitted with missing documentation/information, a notification letter will be sent to the applicant to submit the missing documentation and/or information. Due to the outbreak, **MAGF reserves the right to provide additional time by which missing documentation and/or information is to be received.**

Prospective applicants are strongly advised to avoid submitting applications on the last days of the batch, in order to ensure that technical hitches of any sort do not hinder the successful receipt of applications.

This notification is in no way linked to the Payments Campaign (Pillar I) and is only relevant to the RDP sub-measures for which applications are being, or will be, received as notified on the block procedure timetable available [here](#).

Any documentation previously listed in Measure guidelines and respective application forms as 'Obligatory' will, unless otherwise notified, be considered as 'Required' documentation. **Hence, submitted applications with missing 'Obligatory documentation' will be deemed admissible.** The applicants will be advised further, during the evaluation process, with regards to the submission of any necessary documentation.

Information for Beneficiaries of EU Funded Projects

The current situation has impacted beneficiaries who are currently implementing projects, especially due to travel restrictions and/or national social distancing measures.

Below is the information available so far for beneficiaries of two EU funding Programmes:

Erasmus+ and European Solidarity Corps:

The ordinary implementation of the planned actions shall be normally carried out, as far as possible, and it is for the participating organisations and individuals to decide on the appropriate and proportionate course of action to take in the light of the measures formally adopted by the competent authorities.

All Agreements contain a “**force majeure**” clause which may apply to mobility or local activity restrictions, as a direct consequence of the outbreak. This will be analysed on a “case-by-case” basis. Beneficiaries should contact their case officer within EUPA for further assistance.

Organisations should contact individual participants who already are abroad, or are planning to leave; they should follow the official prescription adopted by the local competent authorities. Participants should also be reminded of the assistance that can be provided by embassies, consulates and honorary consulates in the country of their stay.
